DUNDEE DIRECTORY.

GENERAL NOTICE.

FIFTY years ago Dundee was raised in status from a Royal Burgh to a City. The charter was dated 26th January, 1889, and our first Lord Provost was William Hunter, Esq.

That year 1889 is memorable for the many advances that were made in the improvement and development of the city; and there is much in these social activities to compare with what is going on now. Hermon Hill was opened for building purposes, and on the Ferry Road better class tenements were being built for working people. King's Cross Hospital was opened, as were the Art Galleries in Albert Square, and the new Caledonian Station was completed. The Girls' High School was being finished, and it had been decided to go ahead with the Public Gymnasium in Ward Road. Negotiations were going on for the purchase of the Barrack Park, and there was word of the presentation to the city of the ground now known as the Balgay Park. Trade was booming and everything looked well for the citizens.

THE STAPLE INDUSTRY.

We are glad to record similar improvements all round in the city to-day. The staple industry has been helped by the demand for sand-bags, and the Chamber of Commerce and the Trade Development Committee have been working hard for the improvement and protection of the local industry. Although some dismay was felt that no provision had been made in the Indian Trade Agreement to meet the case of the jute trade, we have the Government's assurance that the matter will be dealt with at an early date, and already steps are being taken in India to reduce the output of the mills.

OUR FRONTISPIECE.

Dundee public men have given much time and thought to the city's future, and we have pleasure in presenting as our frontispiece a portrait of Mr David A. Anderson, J.P., who deserves well of his native town. Mr Anderson is the President of the Dundee Chamber of Commerce, and it is safe to say that there is scarcely a movement concerning the welfare of the city and the citizens with which Mr Anderson has not been actively connected. Among the many other positions he holds are those of Finance Convener of

the Dundee High School; Director of Victoria Hospital; and Chairman of the Jute Importers' Association. He is a trustee for Sir James Caird's Travelling Scholarships Trust, and is Warden of the King George's Jubilee Trust. He also occupies such widely different offices as Assessor to the Guildry of Dundee, and Hon. President of the Dundee Operatic Society. These are but a selection of his offices, the duties of which he fulfils to the satisfaction of the whole community.

IN THE SHIPYARDS.

The high standard of Dundee-built ships is reflected in the many repeat orders on the books of the Caledon ship-building Company. During 1938 seven vessels with a gross tonnage of 31,000 tons had been launched, and that has been considerably added to up to date of going to press. Among the more important vessels were H.M.S. Scott, a survey ship, named after Captain Scott, the explorer, and built for the Admiralty, the first since the war; and the Lightship Abertay. Both these vessels are fitted with the most modern scientific instruments necessary for the exacting requirements of their work. The stocks are still full, and so are the order books of the Caledon Yard, ensuring a period of exceptional activity for the employees.

THE BUILDING TRADE.

The Building Trade continues to be well employed, and the erection of timber houses, a new industry for Dundee, has given work to a large number of local unskilled labourers. Not only is the factory situated in Dundee, but the Harbour will benefit by the importation of thousands of tons of timber direct from British Columbia. The aim of the new company is to produce a minimum of five houses a day. Five hundred and forty timber houses are being built at Linlathen, and five hundred and four are ordered for Dryburgh. The first of the houses at Linlathen are now occupied.

PUBLIC SERVICES.

Dundee Corporation Transport has created a record. Their last annual return shows that they actually carried three million more passengers than in the former year (50 million as against 47 million), while their revenue has increased by £10,000.

Although the Fire Brigade had a reduction of something like one hundred calls on the previous year, the actual losses by fire were almost the same, except in the country districts, where there was an increase of about £35,000. Among the more serious outbreaks in the city were those at Henry Knuck & Company's Works, North Tay Works, and Riverside Works.

During the year some one and a half million books have been issued from the Public Libraries, and the number of readers' cards issued is in the region of 50,000.

Many important additions have been made to the permanent collection of pictures in the Art Galleries, one of the most interesting being Alexander Naismith's picture of Castle Huntly which was bequeathed by the late C. J. Paterson, Esq. of Castle Huntly. The figure in the foreground of the picture is supposed to be that of Robert Burns. Many of the pictures have been lent to exhibitions south of the border, and note might be made of the exhibition at Bamburgh, where the "Wreck of the Forfarshire" and the portraits of Grace Darling and her father were shown. The late Mr J. B. Corr's collection of natural history specimens has been added to the museum.

The thrift of the citizens keeps on increasing. Deposits of over £300,000 were made during the year in the Dundee Savings Bank, which brings the total assets to over eight and a quarter millions.

The new public service of A.R.P. goes on well, and the response to calls for Special Constables, Air Wardens, Auxiliary Fire Services and Women's Services is now very satisfactory. Gas masks have been distributed to the community and air-raid shelters have been constructed in many areas.

THE CITY AS HOST.

Dundee is now busy making preparations to act as host to the British Association for the Advancement of Science, which is to hold its annual meetings in the city during September. During the year the Scottish Association of Incorporated Building Societies, the Federation of Students in Training in Scotland, the Scottish Baptist People's Fellowship, the Episcopal Representative Church Council, the Assembly of the Congregational Union of Scotland, and the Scottish Law Agents' Society, held their conferences in the city.

IN GENERAL.

Dundee High School this year celebrates the seven hundredth anniversary of its foundation, and all interested in the institution are busily engaged in collecting funds for the new school, which is to replace the present buildings.

An interesting visit to Dundee was that of the composite flying-boat, "Maia," from which "Mercury" set off on her attempt to break the long-distance flight to the Cape.

The Dundee Operatic Society gave finished performances of two popular musical comedies during the season, while the Choral Union continues its good work. Repertory is making a brave fight in the theatrical world of Dundee, but we have unfortunately to record that no Celebrity Concerts were held in the city last winter. The Palace Theatre has been reconstructed as a variety house.

CHARITIES.

The Dundee Royal Infirmary has been the principal beneficiary under this head. Ten beds have been endowed, the following being the donors in each case of one thousand guineas:—Miss Annie A. Syme, Miss Agnes Lindsay's Trust, Miss Elizabeth Lindsay's Trust, Mrs Arabella Robertson's Trust, Miss Elizabeth Cook's Trust, Mrs Mary Lindsay or Robertson's Trust, George Nicol Smith's Trustees, Miss Eliza Todd Mitchell's Trust, Mrs Elizabeth Burns Robertson or Stark, Anonymous for Drumgeith Bed.

Legacies have been received from the late Miss Christie Hay Mudie, £1061 10s 8d; Mr Charles R. M'Laren's Trustees, £1607 11s 9d; and Miss Ann Stephen's Trustees, £1800.

The collection made by the Students' Charities Week amounted to £1111 2s 7d, that of The Women's Auxiliary to £1548 14s 3d, and Queen Alexandra Rose Day to £750, while £4113 9s 8d was received from patients and their relatives.

OBITUARY.

We regret to record the deaths of many prominent citizens which have taken place during the period under review. University circles mourn the loss of Dr. R. C. Buist and Dr. George Soutar, while other prominent members of the community who have died are:—Monsgr. Turner, Miss Grimond, Dr. Sydney Campbell, and Messrs P. F. Husband, T. W. Davie, D. H. Brakenridge, George D. Bedson, T. M. Cappon, John Thornton, W. S. Taylor, John Prain, P. J. M'Intyre, and Thomas Allan, and Chief Constable D. C. Christie.

STREET DIRECTORY.

See LIST OF STREETS, SQUARES, &c., at beginning of Directory.

NUMBERING OF STREETS.—In Dundee it has hitherto been the practice to number the Streets with the odd numbers on the *right* hand side of each street, and the even numbers on the *left*. In the Directory, therefore, the names have been arranged in the same way—the *odd* numbers first, 1, 3, 5, 7, &c., then the *even* numbers following in the reverse direction, as 8, 6, 4, 2. The Broughty Ferry Streets, however, are so arranged that the order of the buildings begins on the *left* hand side of the street, returning on the *right* hand side in the reverse direction. This should be kept in mind when consulting the Directory.

The List of Streets, Squares, &c., on page 18 (which has reference letters to denote the position of each street on the Plan of Dundee, and reference numbers and letters to indicate Registration Districts and Ward Boundaries) will be found serviceable in determining the situation of any required locality.

IMPORTANT!

DUNDEE ROYAL INFIRMARY.

EVERY man, woman, and child in the City of Dundee and the County of Angus and in large areas of Perthshire and Fifeshire derives benefit, directly or indirectly, from the services provided by Dundee Royal Infirmary. Hence the obligation to support this great Institution, regularly and generously, rests upon everyone. Are you doing your share?

Every citizen who can do so should become a Governor of the Infirmary by making a personal annual subscription of One Guinea or more. Every employed man or woman should be contributing a copper or two weekly through his or her place of employment. Housewives can contribute through the annual house-to-house collections. And the various special appeals such as Hospital Sunday, Alexandra Rose Day, etc., should be supported to the best of your ability.

The endowment or naming of a bed or cot in the Infirmary provides a fitting and lasting memorial to a departed relative or friend. A bed or cot may be endowed for £1050, or named for £210. Subscriptions and donations should be paid to, and further information can be obtained from the Treasurers—

**R. C. THOMSON & MURDOCH, C.A., 64 Reform Street,
or from W. F. FERGUSON, Secretary, Royal Infirmary.**

The essential running costs of the Hospital have risen enormously in recent years and the need for increased support is urgent and vital. Please give this appeal your earnest consideration and do what you can to help.

The Care of Silver

Silver is not difficult to keep if a few simple precautions are observed.

1. Don't put Silver away damp or dirty.
2. Don't put Silver near damp salt or anything containing sulphur, such as new cloth or rubber.
3. Don't use rough metal polishes for Silver.
4. Don't rub the dust in when polishing.

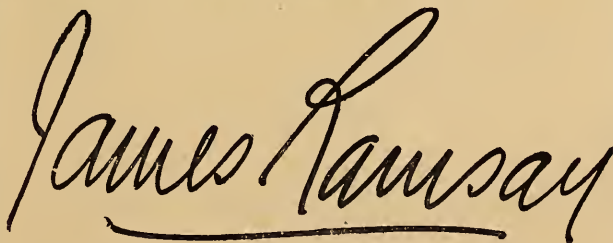

The simplest way to clean Silver is to use "RAMPOL" Silver Cleaning Mixture, specially prepared on my own premises.

First remove all dust and dirt from the Silver, shake the bottle of Rampol and pour some on a piece of chamois skin or a soft cloth, rub away all tarnish and scratches from the Silver, then wash thoroughly in hot water and a little soap. Dry thoroughly and polish with a soft chamois skin. For chased or pierced articles use a brush. To get an extra high polish use a paste of non-mercurial rouge and water instead of Rampol. For odd jobs "Rabok" (Cottonwool impregnated with rouge) or a "Towntalk" silver plate cloth are useful.

Keep all cleaning utensils free from dust.

"RAMPOL"	-	1/- per bottle.
ROUGE	-	1/- and 6d per box.
"RABOK"	-	1/3 per package.
"TOWNTALK"		9d and 1/6 per cloth.
"VELVEX"	-	6d and 1/- per cloth.
